Activity Book

This Activity Book contains activity pages that accompany many of the lessons from the Teacher Guide for Unit 9. The activity pages are organized and numbered according to the lesson number and the order in which they are used within the lesson. For example, if there are two activity pages for Lesson 4, the first will be numbered 4.1 and the second 4.2. The activity pages in this book do not include written instructions for students because the instructions would have words that are not decodable. Teachers will explain these activity pages to students orally, using the instructions in the Teacher Guide. The Activity Book is a student component, which means each student should have an Activity Book.

Dear Family Member,

Your student has been taught to read a number of new Tricky Words. Tricky Words are difficult to read and write because some parts of the word do not follow the letter-sound correspondences your student has been taught. These tricky parts are underlined. Ask your student to cut out the word cards. Show the cards to your student and have your student read them. Extension: Read the words aloud and have your student write the words down. Please keep and use the cards for future practice.

For further consideration:

- Does the student consistently misread Tricky Words, but read decodable words correctly? If so, note misread Tricky Words here:
 - > If the student is struggling to decode, consider helping the student to identify and remediate specific letter sound correspondences.
- Does the student misread words in particular parts of the sentence? (e.g., the student always misreads the first word of each sentence or the last word of each sentence?) If so, note here:
 - > The student may benefit from reading with deliberate finger pointing to each word.
